Louisville Ky

August 2022

Director's Track

Ray & Angela Taylor Chapter Directors

The long ride with GWRRA is now over with all operational contact ending on 7/31/2022 and 12/31/ 2022 will end all functions of GWRRA.

Now is the time we all must think of our future and any possible affiliations with other organizations. Our Chapter as well as other Chapters in our District are still operating as we were before and just holding tight waiting to see what happens.

I personally feel that we as chapter "A" Louisville could continue operating as an individual group without any affiliation with a national group.

Our membership is so strong and talented and has not spent time participating in any of the drama that has infected some of the other Chapters.

The objective of our Chapter is the same as it's always been, fun, education, and lots

year of riding. If you have ever attended one of our meetings, you know that we have lots of fun and laughter even while conducting an informative meeting. We then continue the fun on our rides and functions. This kind of fun draws other riders to join in on our group rides and travel.

In our chapter, we have several members who are certified trainers, and this allows for needed education for all our members who request additional training.

All the above would and could allow for us to be a stand-alone group. The only problem with a stand-alone group is that we would not have all the interfaces with other riders and groups. The social interface and meeting new riders with the same interests are very important to us all. This fact alone would suggest that we should not be a stand-alone group.

Our Kentucky District is loaded with a lot of talent and experience. I am looking forward to our District staying banded together and letting all members join any national organizations that they prefer but keep their major allegiance to our Kentucky District and keep that relationship strong no matter what the rest of the world does.

Hopefully, some interesting and helpful scenarios will come to the surface in the next few months. We then may be able to take advantage of anything that proves to be to our liking. I hope above all we remain healthy and strong so that we can enjoy riding as we always have.

Good luck to all and we can't wait for our next rides and the upcoming Blast.

See you on the road.

Assistant Chapter Directors Tom and Marlene White

Blast to Blast – The Year in Review

This past week I thought it would be interesting to take a look at how active KY Chapter “A” has been during this

last year. I was wondering if we have been as busy this year compared to last year given the many days of high heat this summer and everyone's packed schedules. I admit I was pleasantly surprised and I think you will be too. For anyone wondering exactly what we do in our Chapter group here is a brief recap. This is not exact; however, it is close enough for you to get a good idea of what it means to ride with KY Chapter "A". All data comes from our Facebook group events page, chapter and district visitation records that I keep, and from memory.

Starting with the 2021 Blast and going thru the 2022 Blast at the end of this month we have had 38 scheduled Chapter (group) rides. A couple of them were canceled but the majority took place. From January of this year when I took over keeping records, we have made 19 Chapter visits. Some of these visits were scheduled as chapter events. We have had 12 monthly meetings and often take a short ride somewhere after the meeting. We did multi-day events for the District OPPs meeting in January, the Ride-In in June in Bardstown, and an overnight to Sikeston, MO in July. We also did a District ride to Wallace Station, KY. We of course are going to the KY Blast at the end of this month in Danville, KY for 3-4 days. We have two upcoming events scheduled right after the 2022 Blast. On Labor Day weekend we are riding to West Virginia for a couple of days. Starting September 9th, we are taking a 10-day trip to Arkansas, Missouri and Illinois. Since 2021 Blast and thru today we have visited KY, IN, OH, PA, NY, VA, WV, NC, TN, IL and MO.

The above recap was just for planned Chapter rides. In addition, many of us occasionally get together with each other for individual rides. For example, a couple of us are planning to visit Nashville, IN in the next week or so. Sometimes we get together to eat lunch or dinner, work on our bikes, or just hang-out. Two of our group just recently rode to NC and then did a coast-to-coast ride, NC to CA and back to KY. I could go on; however, you get the idea. Our group has been very active this year. These last twelve months have been terrific. Our success this year has been the result of the participation of its members. I am looking forward to this next year and all that our group will do!

If you are looking for or know of anyone who is looking for a group to ride with check out the links elsewhere in this newsletter and consider paying a visit to KY Chapter "A". We would love to meet you!

It's hard to believe the summer is almost over! Just as Summer has its own challenges for motorcycle riders, so does Fall. The fall is a favorite time for a horny buck to search for a cute doe, sometimes running across the road while doing so. Accidents involving deer and other animals increase sharply during October,

November, and December according to the Kentucky Transportation Cabinet. Where there is one deer, there is usually more waiting to jump out in your path.

Morning dew or rain on fallen leaves also presents a serious hazard for the motorcyclist in the fall. Cooler nights can also cause reduced tire pressure, be sure to check them. Check out the links below for more good tips!

Wow, this year is flying by and as a Chapter we have certainly had a busy year so far with so many fun rides and gatherings.

However, things are about to ramp up even more as the Kentucky District Blast event will be here at the end of August, followed by the trip to West Virginia over Labor Day weekend, and then the long-awaited 9-day getaway to Branson, MO and the Ozarks! Just a reminder for everyone to make sure your bike and trailer, if you're hauling one, is up for the task by checking the tires, possibly checking/changing the fluids, rain guarding your windshield and helmet, and maybe planting a spare key somewhere on your bike in case of an emergency, etc. Lora and I are super excited to be able to participate in all three of these events and are looking forward to spending time with some great folks and exploring the curves in places we've not been before.

Chapter Visits:

Saturday, July 16th Chapter A rode East to visit Chapter C in Lexington, Ky. It was a beautiful warm Summer day. Lots of great things were discussed at the meeting and Chapter G's COY won Smokey back. After the meeting, Chapter A and some of Chapter C went for a nice long ride. We had a great time spending time with Chapter C!!

Special Thanks to Roger Early for the great pictures of everyone on bike!!!

Past Rides

Saturday July 30th

We had a great group for our lunch ride to Sunset Grill in Warsaw, Ky, couples from Chapter S and Chapter G joined us. A good time was had by all!!

July 23rd Ride to LaGrange, Ky

Some of Chapter A riders took a nice ride to LaGrange, KY for lunch to finish the District Crossword Puzzle Challenge and get their pictures taken with this famous statue!! He may not have all the gear all the time, but still a cool statue!

Senior Biker: Road Warrior

Field Review by

La Grange,
Kentucky

A life-size bronze statue of hometown hero and World War II marine veteran E. Bruce Heilman sits astride his Harley-Davidson Electra Glide motorcycle. The statue depicts the senior "Road Warrior" wearing a leather vest, heavy riding boots, and a do-rag bandanna instead of a helmet. He

helped to design the statue by Wyatt Gragg, and planned to be at its dedication in May 2021, but died, age 93, in October 2019. Known as "Motorcycle Man," he had just finished a ride on his Harley from Kentucky to Richmond, then was diagnosed with bone cancer, and died about two weeks later.

Commemorative do-rags were handed out during the dedication ceremony.

Bruce's motorcycle has been set aside for preservation in a glass case at Kentucky's Campbellsville University.

Chapter A rode to Sammy's Bakery in Eminence, Ky after our Meeting Saturday with a few from Chapter S joining us!

From the Editor's desk Karen Risen

Hello All,

The summer riding season is wrapping up as we move into August and the KY Blast is just around the corner. Thanks to all who continue to submit articles for the Newsletter. It is what we make it and hopefully will continue on long after GWRRA is closed. I for one, find it valuable as a communication tool for Chapter A

members and a fun way to showcase what we are doing as a riding group in Kentucky. It's a great way to stay connected and informed on what has happened and is happening. Hopefully, it will keep happening!!

District Rider Education Director Rider Education Report

I hope everyone is having a great summer and enjoying the knowledge gained from past and continuing educational experiences within GWRRA. Yes, I know that the Home Office is officially closed as you read this, but all the Rider Ed programs are still operational through the end of 2022. I just participated in a Zoom call on July 18th for Educators in our area. The Director of Rider Education, Susan Huttman, was the facilitator and was very candid and open with the facts as they are known at this time. She has ordered the entire GWRRA inventory of the Rider Ed pins and patches to be delivered to her home for proper distribution as needed. I will be double-checking my inventory and ordering additional items as required. Please be assured that if the patches exist, and have yet to be claimed by a Member, I will be able to get you what you need.

Please feel free to continue to check the database or contact me to check your file to ascertain what you are qualified to receive. Any Rider Ed courses you take can be added to your file and help to keep you current. Please continue to send the course completion cards to me, and the course rosters too. One thing that has changed is that I am no longer able to input the data, but I can get it to the responsible person and have it entered. I can still see everyone's records, and I can help you understand why you have the status you do. If I can't, I will ask Rider Ed team and get the answer for you.

At the end of this month, there will be several courses and seminars offered at the KY Blast in Danville. We have secured enough instructors for the ARC and TRC so everyone will have the feedback they require for a great experience. Our own Alan Ernest has promised to participate in the event as well. Whether you find them at the Blast or somewhere else, I hope you will take advantage of any courses offered. Knowledge is power. Be "power-full" and ride to success.

Chapter A's Couple of the Year:

The time has come to an end for chasing the COY Mascot. What a fun time Kent and I had traveling around to all the different Chapters and getting to know everyone. We know we missed a few but still will try and get to the Chapters we missed before the end of the year. We want to thank Ray and Angela Taylor for selecting us as COY 2022 and Chapter A for supporting us. We sure love Smokey and we will be at the Blast to see who gets to keep the little guy for good. Also, at the Blast Kent and I will be participating in the District Couple of the Year selection process. Come out and support us Saturday at 8am!!! We are excited and honored to continue the journey at the Ky District level. We realize we are all still figuring out how that will look with GWRRA closing but we are certain that new opportunities and adventures are on the horizon! We hope to see everyone at **THE BLAST!!**

Smokey Report

The Kentucky COY Mascot

COY

Smokey is currently with John & Mary Eicher from Chapter G. They will bring him to the Blast. A drawing will be held at the closing to determine which Couple gets to provide a permanent home for him.

Chapter A's Individual of the Year:

Miles Finley Justice

Well, folks, it is already nearly mid-August, and schools are back in session. Where did the summer go? So far this year we have enjoyed some really great rides thanks to District Ride Coordinator Don Price and Assistant Chapter Ride Coordinator Kent Risen. But the fun is just getting started! We will be kicking off 2-3 weekends of riding starting on August 25th – the first day of the Annual Kentucky District Rally –

The Blast. There will be opportunities for a couple of day-long guided rides put together by Mike VanHoose as well as some shorter rides on both Friday and Saturday. The following weekend will see many of us heading to West Virginia for a Labor Day ride put together by Kent. It looks to be a great time with a number of riders from other chapters signing on to join us. This 3-week stretch culminates with Chapter A's Annual Week-long Fall Ride. This year, the group will be setting up home base in the Branson, Missouri area in order to enjoy a number of scenic rides through the Ozarks area. No doubt there will be additional impromptu rides as long into the fall and winter as the temperatures allow. But, for now, we have some great riding ahead. I hope everyone can join in and share the fun on 2 or 3 wheels.

Pins and Patches

Miles Finley Justice

Not much to report on the Pins & Patches side this month. I still have several Chapter A hanger bars and other items if you want to add them to your collection. At this point, these are “legacy” bits, and who knows, they may well be collector's items one day. For now, I will continue to make these items available until

someone (District maybe?) tells me we cannot sell them any longer. Depending on where things go with a potential new national group – Wing'd Rider, Eagle Wings Motorcycle Association (EWMA), something else – there might be new pins and patches to purchase and distribute in the future. Ride safe all.

TELL US WHAT YOU THINK

The changes that have occurred within our organization have raised many questions and brought us new opportunities. To assist our District leadership in making the correct decisions for the state of Kentucky, we are asking our Kentucky members to complete this survey and tell us what you think.

Your answers will be held confidential and results will be entered into a spreadsheet that can be easily deciphered. Each member is asked to respond: riders and co-riders.

To respond, you can print it and mail it to: Donita Nardi—31 Needmore St.—Walton, KY 41094. You could also email it to me at donitarenzo@gmail.com, or there will also be a box at the KY Blast. All that is needed on your reply is the question number and your answer. This can be scribbled on a piece of paper. No need to print the questionnaire. Do not include your name.

Thank you in advance for your quick response to this decisive information.

QUICK TIPS: MSF's Guide to Group Riding

Motorcycling is primarily a solo activity, but for many, riding as a group – whether with friends on a Sunday morning ride or with an organized motorcycle rally – is the epitome of the motorcycling experience. Here are some tips to help ensure a fun and safe group ride:

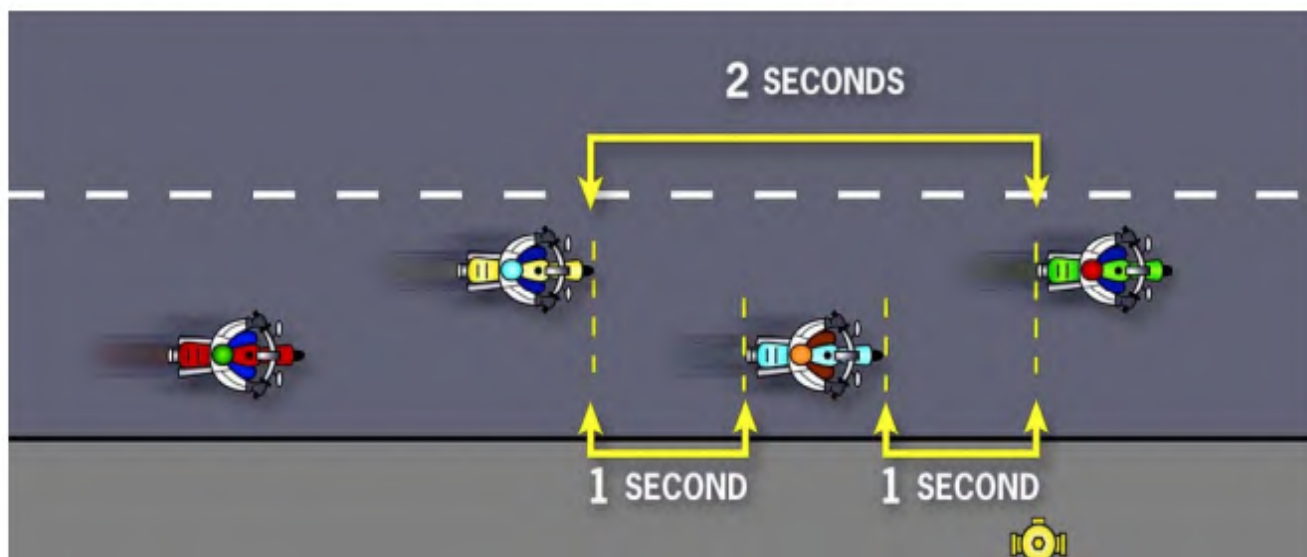

Arrive prepared. Arrive on time with a full gas tank.

Hold a riders' meeting. Discuss things like the route, rest and fuel stops, and hand signals (see diagrams on page 3). Assign a lead and sweep (tail) rider. Both should be experienced riders who are well-versed in group riding procedures. The leader should be aware of each rider's skill level before the ride and monitor the riders during the ride.

Keep the group to a manageable size, ideally five to seven riders. If necessary, break the group into smaller sub-groups, separated by a few seconds, each with a lead and sweep rider.

Ride prepared. At least one rider in each group should have a first-aid kit and full tool kit, and all riders should carry a cell phone, so the group is prepared for any problem that they might encounter.

Ride in formation. The staggered riding formation (see diagram below) allows a proper space cushion between motorcycles so that each rider has enough time and space to maneuver and to react to hazards. The leader rides in the left third of the lane, while the next rider stays at least one second behind in the right third of the lane; the rest of the group follows the same pattern. A single-file formation with a minimum 2-second following distance is preferred on a curvy road, under conditions of poor visibility or poor road surfaces, entering/leaving highways, or other situations where an increased space cushion or maneuvering room is needed.

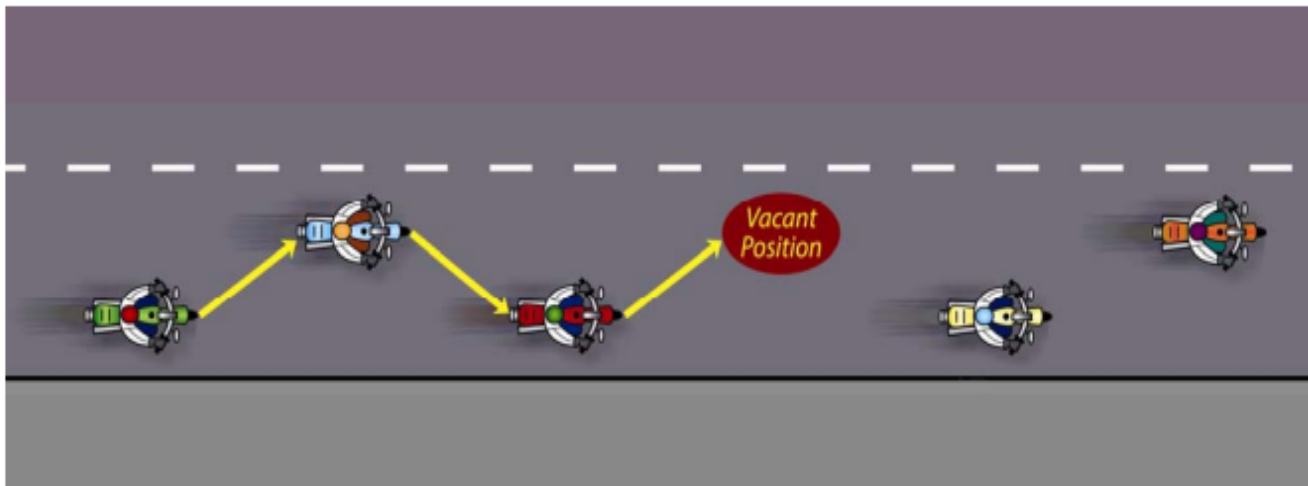

Avoid side-by-side formations, as they reduce the space cushion. If you suddenly needed to swerve to avoid a hazard, you would not have room to do so. You don't want handlebars to get entangled.

Periodically check the riders following using your rear view mirrors. If you see a rider falling behind, slow down so they may catch up. If all the riders in the group use this procedure, the group should be able to maintain a fairly steady speed without pressure to ride too fast to catch up.

If you're separated from the group, don't panic. Your group should have a pre-planned procedure in place to regroup. Don't break the law or ride beyond your skills to catch up.

For mechanical or medical problems, use a cell phone to call for assistance as the situation warrants.

If a rider leaves during the ride, the rest of the group should re-form the staggered formation by criss-crossing into the next vacant position. Although it would seem more efficient for the column directly behind the missing rider to move up, we do not recommend it because passing another rider within a lane can be risky.
